Tim Arnold

Tim leads the Advocate Cerner Collaborative, a joint effort between Cerner and Advocate Healthcare based in Chicago. This highly skilled team uses data and technology to advance the broad objectives of population health. The team has created and deployed statistical models in several areas including readmissions, recommendations for post-acute care, hospitalizations for chronic conditions, and medication adherence.

Prior to joining Cerner in 2016, Tim spent 13 years working for healthcare systems in Illinois, Maine, and Massachusetts. Tim received his Bachelor’s degree in Economics from Harvard University. He also received an MBA from the Kellogg School of Management at Northwestern University.
